ADITYA SHARMA

has successfully completed the online Specialization

Generative AI for Software Developers

The Certificate holder has demonstrated the ability to differentiate generative AI from discriminative AI, describe real-world generative uses, and identify and use popular generative AI models and tools for text, code, image, audio, and video generation. The learner can explain generative AI prompt engineering concepts, provide examples, and apply prompt engineering techniques that create demonstrably useful outcomes. The Certificate holder can identify useful, appropriate generative AI tools for software engineering. And can apply techniques for design and architecture, bug detection, code refactoring and program optimization using generative AI, and develop solutions using AI-powered tools and algorithms.
